

LARGE OVAL GAS FIRE BOWL (with Double Sided Enclosure)

Index # 61, Rev-2 / Page 1 of 3

CVO Fire : 01325-301020 : www.cvo.co.uk : sales@cvo.co.uk

OPTIONS:

- FIRE BOWL: White Cast Stone, Black Cast Stone, Hand Polished Aluminium or Hand Polished Bronze.
- ENCLOSURE: Black Steel, Brushed Steel, Natural Stone & Hand Polished Bronze.
- TRIM: There is an option to add a natural stone trim to the enclosure.

CE APPROVAL:

The appliance is CE approved for the following gas categories. Due to European Community regulations this allows us to ship the fire to any member state..

NATURAL GAS

NG-I2H-G20-20mBar

NG-I2E-G20-20mBar

NG-I2E+-G20/G25-20/25mBar

NG-I2L-G25-25mBar

LPG/PROPANE

LPG-I3P-G31-37mBar

DIMENSIONS:

Overall dimensions of the surround: NG/LPG HEIGHT: 618mm x WIDTH: 1200mm x DEPTH: 2mm

Overall dimensions of the fire: NG/LPG HEIGHT: 210mm x WIDTH: 700mm x DEPTH: 440mm

Dimensions of standard enclosure: NG/LPG HEIGHT: 618mm x WIDTH: 840mm x DEPTH: 924mm

Dimensions of required construction opening: NG/LPG HEIGHT: 900mm x WIDTH: 900mm x DEPTH: 920mm

LARGE OVAL POWER RATING:

High and low flame setting (gas only):

Heat input high: NG 12.9KW LPG 14.3KW

Heat input low: NG 9.2KW LPG 9KW

Approximate running cost per hour on high (subject to your gas supplier tariff): NG – 16p LPG – 75p.

OTHER TECHNICAL INFORMATION:

1. The Fire Bowl is available to buy as a separate item if required and is available for Natural Gas or LPG/Propane.
2. When using this as a Double Sided or See Through fireplace specialist extraction and possibly a fan system will be needed to ensure the fire operates safely. Before considering this type of design consult a flue specialist. CVO can provide the enclosure with a glass panel fitted on one side to retain the visual aspect but reduce the need for the fan system. Ask for details.
3. The fire is CE approved [as a single sided appliance] with a chimney equivalent to 3m x 200mm Flue Liner.
4. The enclosure is supplied with a gather with a 200mm spigot to fit the flue liner.
5. This is a high power appliance and requires fresh air room ventilation for combustion. The high power will also mean that there will be a high gas rate and possible noise.
6. The gas fire bowl is fitted with safety devices in line with CE regulations.
7. The gas fire bowl is operated by a manual control ignition system; remote control is available upon request.
8. The gas fire bowl is supplied with the inlet gas pipe exiting from the rear; this can be routed through the base of the fire bowl if required at additional cost. Please discuss when ordering.
9. The gas fire must be installed by a qualified GAS SAFE engineer.
10. This appliance requires a strong gas supply to ensure it operates reliably and safely. Gas pipe work needs to be able to supply a minimum of 1.4m³/h Natural Gas or 0.5m³/h LPG/Propane with the appliance on full rate.
11. See attached dimensions.
